Hello trainee candidate,

to get to know your skills and creativity please create a simple website about you.

It should represent you and your tendency/passion to coding.

The website should contain four sites:

- start page: introduce yourself, with picture
- hobbies: describe your hobbies, if you want to link your club's pages there
- CV: your resume yet
- training: short description what you expect of a traineeship at our company

All sites should be reachable by links and accessible from every other site.

Describe in English what makes you the perfect candidate as a trainee at WIRmachenDRUCK GmbH.

Be creative in design and layout.

Be creative in design and layout #stateOfTheArt #lookNFeel #responsive

Your Website should contain HTML and CSS code, optional javascript.

You have 1 week to send us the files in a .zip to my e-mail address:

d.kniesel@wir-machen-druck.de

And now have fun with coding!
